F2 STOCK CAR HEALTH & SAFETY NOTICE

6 July 2024

Dear F2 Stock Car Driver

Welcome to King's Lynn for tonight's special White & Yellow grade only meeting and many thanks for your support.

Please note

Every time a driver gets a top three finish they move up a grade for the rest of the night. IE a white top who gets a top three in the first race moves to the yellows for the next race. Should they get another top three they start where the blues would for the final. Drivers who are upgraded in this way do not need to start at the back of the new grade should they win a race.

Start of Races

PLEASE NOTE THAT THERE ARE GREEN TYRES BETWEEN TURN 3 AND TURN 4. THE LEAD WHITE TOPS MAY START AT THE FIRST GREEN TYRES. ON A RESTART THE LEADER MAY START AT ANY POINT BETWEEN THE TWO GREEN TYRES. DRIVERS STARTING BEFORE REACHING THE FIRST GREEN TYRE WILL BE DOCKED PLACES. IT IS IMPORTANT THAT ALL DRIVERS FROM ALL GRADES GO AT A STEADY ROLLING PACE UNTIL THE RACE STARTS. DRIVERS WILL BE INFORMED WHEN THE RACE STARTS BY A COMBINATION OF THE GREEN FLAG BEING WAVED AND LIGHTS ON TOGETHER WITH AN INSTRUCTION OVER THE RACE RECEIVER. ANY DRIVER WHO STARTS RACING BEFORE THIS WILL BE DOCKED OR EXCLUDED FROM THE RACE. YOU HAVE ALL BEEN WARNED. THE LEAD WHITE TOP MUST SET A STEADY PACE AND THE POLE SITTER IN EACH GRADE IS RESPONSIBLE FOR MAINTAINING THE GAP BETWEEN GRADES.

Deliberate riding of the wall to gain an advantage can be penalised

PLEASE ENSURE YOU ARE USING YOUR RECEIVER AND THAT IT IS TUNED TO CHANNEL 952 (FREQUENCY 461.8875). FAILURE TO HAVE A WORKING RECEIVER WILL SEE YOU EXCLUDED FROM THE RACE

Please note that if your car needs recovering after a race you must wait inside your car and not get out of it.

We would like to take the opportunity to remind you of some of our important Rules of Racing.

No attacking cars on the Concrete Safety Area. All of the concrete area is designated as a safety area.

No Driving at a speed above 5mph on the Concrete Safety Area.

If you enter the concrete area inside the ring of tyres you should stop immediately and under no circumstances exceed walking pace.

No driver must exit their car on the infield or on track unless there is a major problem – IE Fire. At the end of a race unless you are collecting a trophy you must remain in your car whilst recovery takes place. If you are collecting a trophy you must drive slowly on the middle and park up near the trophy table until you are instructed to leave your car.

Please note that the new ORC Rules of Racing regarding race restarts. In the event of a stoppage the race will be restarted with any backmarkers between the top six drivers which are on the lead lap removed and sent to the back of the grid. These drivers will gain a lap back in the race. No driver must attempt to overtake or unlap themselves without being instructed to do so by an official or over the race receiver and no driver must move on reds unless instructed to do so. Anyone doing so will be excluded from the restart.

795

Prize Monies

Tonights meeting will pay full prize monies on both the heats and final.

Scrutineering

Scrutineering takes place on the centre. Please take your car to be scrutineered as soon as possible.

PLEASE ALSO REMEMBER THAT FIREPROOF GLOVES ARE MANDATORY AND THESE NEED TO BE PRESENTED AT SCRUTINEERING.

Please note that in the event of a stoppage the track curator may decide to water the track before the restart. If this happens you will be shown the 2 rolling lap board and the first rolling lap will be behind the water cart. During daylight it is highly probable that this will happen.

Wheels and Tyres and Rubbish

Please ensure you take all your rubbish with you including wheels and tyres. Any driver leaving wheels and tyres in the pits will be subject to an ORC ban. Please take your rubbish away with you or put it in one of the bins provided.

Pit Safety

Please note there is no smoking in the pits

There is a strict walking pace speed limit in the pits

When working under your car you must make sure it is supported by either a proper axle stand or with some wheels and not just left on a jack so if the car slips off the jack there is something to stop it causing a serious injury to whoever is underneath it. If a Hiab is used ensure part of the car is over the flatbed area of the lorry.

All fuel must be kept in sealed containers.

- In the pit area the speed limit shall not exceed walking pace at all times! Drivers and mechanics are reminded they must not encourage members of the public (especially children) into the pit area. Members of the public are not permitted to gain entry to any racing venue via the pit gate entrance under any circumstances.
- When drivers are working on their car in the pits they should be aware at all times that members of the public may be in the pit area, as well as other competitors, mechanics and members of their families. The driver should make sure that a member of their crew is responsible for ensuring no-one is placed in danger by their work. Members of the public should be at least 2 metres away when carrying out any mechanical work.
- Normal Health and Safety rules apply within the Pit area. This particularly applies when mechanical equipment is being used like hiabs, stihl saws and welding

equipment. Drivers must ensure that the people who are operating this equipment are fully qualified to do so and have the appropriate personal protective equipment such as goggles and footwear. The actions of the drivers crew remain their responsibility throughout the raceday.

- Fuel should be stored in approved containers and well away from public areas. When re-fueling a vehicle, a second person must be present with a fire extinguisher. Extra care should be taken if the engine is still hot. Members of the public should be at least 2 metres back when re-fueling.
- It is an ORCi rule in all formulas that a fully operational Fire Extinguisher is kept with all tow vehicles and its position is known to all your pit crew.
- When driving any vehicle in the pits you must always obey the 5 mph limit.
- Children must be accompanied by an adult at all times.

Drivers should not have Smart-devices on their person during racing. Some have technology built into them, which could trigger responses from Emergency Services on impact.

PLEASE NOTE THAT YOU MUST HAVE YOUR LOG BOOK WHEN YOU GO TO COLLECT YOUR MONEY. IF SOMEONE ELSE COLLECTS YOUR MONEY ON YOUR BEHALF THEY MUST TAKE YOUR LOG BOOK WITH YOU OR THEY WILL NOT BE PAID.
